

Professor Marko Latyk
Ivan Franko Lviv National University
Lviv, Ukraine

May 20, 2022

Dear Professor Latyk,

It is my great pleasure to once again congratulate you on being selected to receive this year's Global Partners in Education Rosina Chia Instructor of Excellence Award. The Rosina Chia Instructor of Excellence Award was created to recognize those instructors involved in the Global Understanding program who demonstrate a strong commitment to both their students and their partners and create positive and impactful experiences as they work together with their partners to prepare students with the skills, knowledge, and adaptability essential for thriving in today's interconnected world.

Each year, the winners of this award are first nominated by their partner instructors and then an awards committee made up of past recipients of the GPE Awards selects the finalists and winners. The awards committee makes their determination based on the information they receive in the nomination as well as any additional link reports instructors submit about their experience working with the nominees. Your partner instructors found working with you particularly rewarding. Here is some of the feedback they provided:

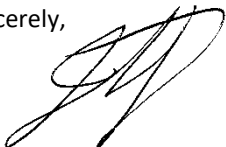

Professor Marko is an outstanding instructor. He has a unique style of communication and teaching.

My colleague [Marko Latyk] created a relaxed and friendly atmosphere, which prompted students to engage in interesting and enriching discussions. I really appreciated Marko's approach and look forward to working with him again in the future.

He [Marko] is very committed to the discussion. He asks insightful questions and leads the class tremendously well. I think he represents a role model for all Global Understanding instructors because of his energy and availability every day.

We know that working in collaboration with colleagues around the world can be quite challenging. We, too, greatly appreciate your enthusiasm for this work and being a standard bearer for all of our partners to look towards for inspiration. It is instructors like you that make this program a success. Once again, congratulations!

Sincerely,

Jami Leibowitz, Ph. D.
